DETAILED ACTION

Amendment After Final

1. The Amendment After Final submitted on November 17, 2009 has been entered in the above-identified application. Claims 1-20 are cancelled. Claims 21-34 are pending and under consideration now.

The indicated allowability of claims 21-34 is withdrawn in view of the newly applied rejection. Prosecution is hereby re-opened. Any inconvenience to the Applicants is sincerely regretted.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 20-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Independent claims 20 and 34 each recite that method step of "applying an admicellar hydrophobic polymer coating on the at least one surface of the plurality of individual fibers wherein voids disposed between the plurality of individual fibers having the admicellar hydrophobic polymer coating on the at least one surface are free of the

admicellar hydrophobic polymer coating". However, there is no support for such a limitation in the original disclosure (i.e., the original claims and as-filed Specification). Claims 20-34 were first newly-added in the amendment submitted on May 8, 2008. However, in that the amendment the Applicants have not pointed to any specific support for such a amendment. The Examiner has carefully reviewed the as-filed Specification, drawings and the original claims and was not able to locate any support for the limitation "wherein voids disposed between the plurality of individual fibers having the admicellar hydrophobic polymer coating on the at least one surface are free of the admicellar hydrophobic polymer coating".

Applicants are required to point to specific support for such a limitation or to cancel the new matter in response to this Office Action. Furthermore, Applicants are reminded that any previously applied prior art rejections may be reinstated upon the cancellation of the new matter.

Response to Arguments

3. Applicant's arguments with respect to claims 2-34 have been considered but are moot in view of the new ground(s) of rejection. A phone call was made to attorney of record, Bryan Fuller, on January 21, 2010 to resolve the above new matter but did not result in a substantial discussion.
